

summerschoolsineurope.eu

The largest directory of summer courses in Europe

What is Summer Schools in Europe.eu?

Summer Schools in Europe.eu is a website initiated by Utrecht University (in the Netherlands), which contains a large database of academic summer schools throughout Europe. The aim of this website is to facilitate the process of finding summer schools and summer courses for students, which in return will increase the number of students who apply for a summer course in Europe.

All of these advantages are free of charge, all we ask is for member universities to place a link to www.summerschoolsineurope.eu on their university website!

Our ambitions

Summer Schools in Europe.eu aims at becoming the most complete directory of summer courses in Europe. Therefore we invite European summer schools to submit their programmes to our database. This will increase the number of students who are informed of your summer courses, and will most likely increase your amount of applicants. This was the case for Utrecht Summer School (USS). Ever since USS became a member of SSIE, 5% of their applications were done by visitors who entered via summerschoolsineurope.eu.

Summer Schools in Europe.eu is working to make it possible for Universities who wish to cooperate with other universities who are also members, to create international summer programmes, and so target a specific group who wishes to visit several European countries while following a summer program.

Statistics

There are currently 132 universities and over 633 different summer courses on our website, both are increasing at a fast pace. Our visitors come from 188 different countries around the world. The largest group of visitors from outside Europe is from the United States of America.

Over 312.000 pages have been viewed on www.summerschoolsineurope.eu in the period February 2010 – February 2011. If we compare the months September 2009 – February 2010 to the months September 2010 – February 2011, we are proud to say that we have an increase of over 135% of visitors.

Our visitors are serious seekers of a summer course as they view an average of 5 pages per visit, and stay for an average of 4 minutes.

Functionalities

Joining our website

Universities who want to join our website only have to click on 'submit courses' and the website will guide them through the rest of the short and easy process.

Member Universities

Once a university becomes a member, it will receive an account and password with which it can easily upload and edit courses and information about the summer school. Note that, every university is responsible for keeping its own profile up to date.

Students

Students seeking for a summer school/course in Europe have several options they can choose from when searching for the perfect summer course for them. There is a map with all the cities where courses are being given where they can click on. There is also a search bar where they can search for a course by typing a keyword. There is also a more specific search bar where visitors can select 'what', 'where' and 'when'. Here they can specify what discipline they want to study, where they want to study and during what period they want to study.
